- 1. Summary: The outstanding developments of the reported period have been the additions of CABATONS 27-3; to the project. After a summer hiatus when manpower within the branch was down to one case officer, we have found ourselves again in a position to expand our spotting, assessment and recruitment efforts. We are also experimenting with using agents as spotters and recruiters -- specifically CAECTOMY 18 and CAEDITOR.
- 2. Action Required: Please note the assignment of any oryptonyms you were not previously aware of.
- 3. Progress Towards Fulfilling Project Objectives: We are making good progress towards being in a position to fulfill all requirements. However, existing and projected requirements appear to demand continual expansion. We currently have the capability of absorbing aix to eight specific requests for accommodation addresses. However, these will shortly be used up by demands from two principal customers the Soviet branch of FOB and EOB.

Assignments: CABATON 19, CAELI 1, CARET, plus Kalety and CADORM who use a Post Office Box procured but not serviced by the agent. All of the above assignments are still valid, although traffic is very light. In addition, the address has been made available to BOB, but they have not made any assignments.

Performance: Completely satisfactory.

Finance: Subject continues to receive DM 100.00 per month.

CABATON 9: Case officer

Location: Frankfurt

Assignment: Still assigned to AEHUMBUG 1, and receives regular traffic about once a month. AEHUMBUG 1 is soon to be turned over to the local service, and we must therefore assume that GABATON 9 will be blown.

Performance: Completely satisfactory. Agent cooperated in an effort to procure a large safehouse for a FOB/SOV operation during this period. It eventually developed that the house was not needed, and the effort was discontinued. Nevertheless, agent displayed

obtained by case officers under alies, and two by agents under true name. It may be vignificant to note that in the month of October 1959 the Bundespiech has imposed new regulations on the acquisition of postboxes. In wronkfurt chep may now only be produced through the central post office, and it opposes that a general review of the postbox situation may soon be important by the local authorities. All case officers and ogents who have been out postboxes during the past year have had backstopped and residential riorecases to use at the time of application. However, this must be even note carefully laid on in the future. It is no longer an easy matter to obtain a post box in alles, at least in the Frankfurt area.

- 7. Finance and Commitments: The monthly budget of this project nor abunds at approximately EM 1150.00 exclusive of operational expenses. Operation breakdown may be determined by an examination of section 4 of this report.
- d. Security: There have been no significant scentity problems during the reported period,
- 9. Prospective Development and Planning: If possible, we will expand the spotting activities of such agents as CAECTONY-13, CAECTON, and CACHIN-12 to provide more candidates for this project. In a few cases, we are permitting CAECTOMY 18 and CAECHON to attempt recruiting and handling drops theomolives. This has become necessary because of the growth in the number of essets, and their geographic distribution. We feel that we have made a fair amount of progress over the past several months, but are also aware that according an encept of additional assets may be required before we can relax our spotting and recruiting progress -- especially if customers insist on limiting a given address to their operation and theirs slower
